MISCELLANEOUS.

The Dreaded Consumption Can Be Cured.

T. A. Slocum, M. C., the Great Chemist and Scientist, Will Send, Free, Three Bottles of His Newly Discovered Remedies to Sufferers.

Editor INDEX-TRIBUNE—I have discovered a reliable cure for Consumption and all Bronchial, Throat and Lung Diseases, General Decline, Loss of Flesh and all Conditions of Wasting Away. By its timely use thousands of apparently hopeless cases have been cured. So proof-positive am I of its power to cure, that to make its merits known, I will send, free, to any afflicted reader of your paper, three bottles of my Newly Discovered Remedies upon receipt of Express and Postoffice address. T. A. SLOCUM, M. D., 98 Pine Street, N. Y.

When writing the doctor please mention this paper.

THE GODS ARE DEAD.

The gods are dead? Perhaps they are!
Who knows?
Living at least in Lempriere undeleted,
The wise, the fair, the awful, the jocose,
Are one and all, I like to think, retreated
In some still land of lilacs and the rose.

Once high they sat, and high o'er earthly shows
With sacrificial dance and song were greeted,
Once, long ago, but now the story goes,
The gods are dead.

It must be true. The world, a world of prose,
Full crammed with facts, in science swathed and sheeted,
Nods in a stertorous after dinner doze.
Plangent and sad, in every wind that blows
Who will may hear the sorry words repeated,
The gods are dead.
—W. E. Henley in New York Times.

WARNED IN VAIN.

Aunt Jerusha had never seen nor heard of the above, so she flung up the window and popped out her head with the grace and spring of a mechanical toy.

"Laws! Mercy sakes! Waal, I never in all my life! If that don't beat the Dutch!"

Aunt Jerusha's vis-a-vis at the table near the window she had so unceremoniously flung up was a handsome young man—an artist, in fact—who had come to Seedville to sketch. He took no trouble to explain himself to its villagers, but dropped as simply as possible into the simplicity of its life.

"Mrs. Spearmint," he said mildly, "if you will close that window my buckwheats and sausage will be much warmer."

"Oh, but sakes alive!" she responded. "Do look quick and never mind your buckwheats. Ain't that the curioustest thing you ever did see in all your born days—and there ain't the shadder of a horse to it."

Vilas Stansfield grew interested. He tore himself from his buckwheats and projected his head from the window, staring down the narrow by street on which Aunt Jerusha lived with the true Seedville stare.

"Caesar's ghost!"

"What! Be it a ghost?" asked Aunt Jerusha, yanking in her head and looking keenly at him, as if one or the other of them might be growing crazy.

"I might have known that no one but Miss Waterloo would have ventured into this region with an automobile tilbury. That bridge will never hold her." And seizing his hat, he rushed out of the house and down the narrow elm shaded street after the horseless carriage.

"Whatever has struck that man?" cried Aunt Jerusha, bringing down the window with a bang, now that the show was out of sight. "What did he call it? Waterloo, was it? Wait till I go tell Susan Sparrerhawk I've seen a waterloo," and she hurried next door with this Wellingtonian or Napoleonic piece of news.

The news affected the Sparrerhawks as it had Aunt Jerusha. They threw up the window and ejected their heads, but with no satisfactory result. Sam caught up his hat and rushed down the street after Mr. Vilas Stanfield, who sprang along in the wake of the automobile tilbury at a college acquired gait.

It was a very choice vehicle, enameled in dark green and upholstered in russet leather. In the middle of the seat, dressed in dark green and russet, to match the tilbury, was a very young woman maneuvering the motor as if her only desire was to keep her turnout at the top of its speed.

Vilas Stanfield could not overtake it. He called. He flung pebbles at it. He whistled. It splashed through the puddles and bumped over the inequalities of the village byroad as if nothing would be allowed to stop it. In a moment it would be upon a bridge, a crumbling bit of antique architecture that Seedville had clung to as a footway long after they knew it was unable to hold even the doctor's chaise. Recent heavy rains had now all but washed away its supports. The automobile tilbury was as surely headed for an accident as any whirring express with a bowlder on the tracks. He turned white and whistled again, this time the tune he and she had sung in duet, as with this same horseless tilbury they had rolled along the hard, broad roads in southwest England.

She still whirled on.

He put his fingers to his lips and increased the strength of the whistle.

She stopped, the wheels of her carriage on the very edge of the decrepit bridge—turning white, too, but not because of the danger.

"Mr. Stanfield," she said severely as he came up, "may I ask what this means?"

"Certainly," he said, touching his hat. "You can't cross that bridge. It's not safe even for foot passengers. I saw you from my boarding house window, and I came to tell you."

"Very kind, I'm sure," she said, with a little toss of her russet feathers, "but I've no wish to have you save my life a second time. We had enough of that melodrama at Bude," and she put her hands on the motor handles again.

"I'm in earnest, Miss Waterloo. You must not cross that bridge unless you want to be drowned."

"I'm in earnest too. I shall cross that bridge, and I won't have you save my life. The obligations of having you save me at Bude is enough."

"Very well," he replied in a hard, crisp tone. "I won't save it, then. But here comes a man whom I know. Sam," he called, "show this lady how to get across by the other bridge," and, resuming his hat, he walked rapidly back to the village.

"It's nonsense," cried Miss Waterloo as soon as Vilas Stanfield was out of sight. "Of course I can go over this bridge. I have crossed two this morning that were quite as bad."

"To tell the truth, now," said Sam slowly, "he's about right. I wouldn't drive our cow over the bridge since the rain. Why, it ate the mortar right out 'tween the stones. I'll show you the way 'round by the other one."

"I haven't time," she said, glancing at the tiny chatelaine watch at her jacket lapel. "I've lost over five minutes now, and I'm racing and must get back to Steepleton as fast as I can." And once more taking the motor she shot across the bridge almost to the other side, when there was a waver, a crush, a collapse, and Miss Waterloo and her tilbury automobile disappeared with the bridge.

"I swan!" exclaimed Sam, "I swan!" And, flinging off his coat, he managed to pick and scramble his way across the stream to her rescue.

"That's right," he called cheerfully. "Just sit quiet, and I'll give you a pull on to dry land. The thing wouldn't make such a bad boat if it hadn't wheels and had sides and would float." And he gave the tilbury a strong twitch toward shore as she gathered herself together and tottered to her feet.

"Don't do that," she cried. "I'm killed as it is, and it shakes so!"

"The young feller knowed, didn't he?" said Sam, discontinuing his jerks upon the carriage.

"Oh, yes, I suppose so. Where did he live? Please take me to his place right away. I have no other friends anywhere about here, and my arm hurts me awfully." And in spite of her set lips she began to weep.

"Don't cry," said Sam sympathetically. "There's nuf water in this here little stream scuse the rain anyhow. Hold on a minnit and I'll fish you out as fine as a new fiddle." And, seizing a plank, he extended it to her from the edge of the bank and pulled, tugged, splashed and dipped her out with it.

"Your queer buggy, or whatever it be, will have to wait there till I git some of the boys to give me a lift with it. Can you walk?" And he eyed his charge anxiously. "'Cause if you can I'll gallant you to Aunt Jerusha's."

"Aunt Jerusha's?"

"Yes. That's where he stops. It's just next door to us and 'twas her that come trottin in and told us 'bout you scuddin by like all possessed and no hosses. So I grabbed my hat and came runnin up to see the show, but I didn't plan for no such grand one as this. How you gettin on? Can you walk?"

"I will try to," she said, stepping off very slowly and catching at his arm for support. "You don't mind allowing me your arm for a little way?"

"Oh, no—that is"— And he coughed violently as he stiffly projected his elbow. "I've gallanted girls before."

They made an odd pair for the village road. She, a draggled, dripping tailor gowned girl; he, a cherry cheeked Seedville swain, wriggling with surplus attempts to be gallant and to nobly do his duty, yet growing still more cherry cheeked and wrigglesome as they came within reach of the village windows.

"There be Aunt Jerusha's right over there," he said. "She'll give you campfire or catnip or whatever it is you want. I'll haf to go back and git my coat. Seems I forgot it." And dropping her from his arm he vanished around the barn, leaving her deserted opposite the brass knocker on Mrs. Spearmint's side door.

Miss Waterloo slowly crossed the bystreet to the side door, and, much dazed with the shock, pain and embarrassment of her condition, she raised the knocker and let it fall with a tap that brought Mrs. Spearmint to the door as if she had been waiting for it.

"Aunt Jerusha," said Miss Waterloo, for want of a more formal name, "is—does—Mr. Vilas Stanfield live here?"

"He do at present, but he's just gone up and banged hisself into what he calls his study."

"May I see him a moment—that is, I think you'll have to take me in. I've had an accident. I fell through the bridge and"—

"Land er Goshen! You don't say so! Waal, now, come right in this minnit. I'm awful glad to see you, and so he'll be no doubt. Hurt, did you say? Poor thing, and you're all sorter damp. I'll lend you my wrapper while you dry off. Mebbe I'd better git a doctor?"

"If somebody would send a telegram for me," said Miss Waterloo, "I would"—

"Wait! P'r'aps Mr. Stanfield will. He's an awful nice young man and as harnsome as a picter." And shoving an old fashioned rocker toward Miss Waterloo Mrs. Spearmint rushed up stairs to the studio.

"Mr. Stanfield!"

No answer.

"Be you asleep?"

"No."

"Waal, there's been an accident to the waterloo, and she's down stairs wantin you to telegram."

The studio door flew open. Vilas was past Mrs. Spearmint and down the stairs, three steps at a time, but he did not telegraph. He got the automobile tilbury from the water. He sopped it up and rubbed it down till it looked as well as when it left the manufacturer. Then, because Miss Waterloo's arm was so out of order, he got into the horseless carriage beside her and took her to her home. Later he took her to his home.—Chicago News.

Curious Surnames.

Among the curious and suggestive surnames in a certain county in north Missouri are the following: Red, White, Blue, Green, Gray, Brown and Black. There are also Kings, Queens, Earls, Dukes, Marquises and Lords. In animated nature are to be found Wrens, Birds, Cows, Hawks and also Hawkins and Fowlers. Among quadrupeds are Wolfe, Lamb, Lyon, Bull, Stier and Redheffer. At one time, in a county in western Kansas, there lived Redwine, Sourbeer, Drybread and Pancake.—Chicago Tribune.

Its Recommendations.

A newly invented hatpin makes the following bid for feminine favor: "The patent stationary hat fastener, warranted to keep the hat on straight in a cable car when rounding curves."—Chicago Chronicle.

LEGAL.

Ordinance No. 53.

An Ordinance calling a special election in the City of Sonoma, submitting to the qualified electors of said city at said election the proposition to incur a municipal debt aggregating Twenty-two Thousand Five Hundred Dollars for the object and purpose of acquiring, constructing and completing a permanent system of municipal waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks, machinery for the same, and connected with the use thereof, to supply the City of Sonoma and the inhabitants thereof with a sufficient quantity of pure, fresh water, the cost of which proposed waterworks will be too great to be paid out of the ordinary annual revenue and income of said City of Sonoma; providing for the issuance of the bonds of said city for said amount if said proposition be accepted by the qualified electors thereof as required by law; prescribing the time and manner of holding such election, and the voting for or against the proposition to incur said indebtedness and otherwise providing for and regulating said election.

The Board of Trustees of the City of Sonoma do hereby ordain as follows:

SECTION I.

Whereas, It appears to the satisfaction of the said Board of Trustees, and is by the said Board hereby determined and adjudged that the said Board of Trustees, did by ordinance duly passed by a vote of more than two-thirds of all the members of said Board of Trustees, on the seventeenth day of March, A. D. 1897, in the City of Sonoma, at a regular meeting of said Board of Trustees, then and there duly held, determine and adjudge that the public interest and necessity of the City of Sonoma, demand, and the public interest and necessity of said city do in fact demand the acquisition, construction and completion by said city of a permanent system of municipal waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, wells, tanks and machinery for the same, and connected with the use thereof, to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water for domestic use, and for the use of the Fire Department, and for flushing sewers, sprinkling streets and other purposes; and did also in said ordinance determine, and do now determine, that the cost of the acquisition, construction and completion by said city of said system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, is too great to be paid out of the ordinary annual income and revenue of said city; that said Ordinance No. 52, so passed as aforesaid, was thereafter and on the seventeenth day of March, A. D. 1897, duly approved in writing by the Executive of said City of Sonoma, viz: by the President of the said Board of Trustees; and that said Ordinance No. 52 was thereafter in accordance with the order and direction of said Board of Trustees, by the City Clerk caused to be published, and was duly published as provided by law, for two weeks consecutively, to wit: Commencing on the 20th day of March, A. D., 1897, and ending on the 3d day of April, 1897, in THE SONOMA INDEX-TRIBUNE, a weekly newspaper of general circulation published in the said City of Sonoma, and as often as said newspaper was published during that time, to-wit: On the 20th day of March, 1897, the 27th day of March, 1897, and on the 3rd day of April, 1897, such dates being the days of publication of said newspaper; and whereas said Board of Trustees did, by resolution duly passed by the vote of more than two-thirds of all the members thereof, authorize the Committee on Water Works to secure the services of a competent engineer to assist them in their efforts, and whereas said committee did authorize, direct and employ Otto Von Geldern and C. E. Grunsky, competent civil engineers, who had theretofore had successful experience in the work of the acquisition, construction and completion of permanent systems of waterworks to make, prepare and submit to said Board of Trustees plans and estimates of the cost of the acquisition, construction and completion of a permanent system of waterworks to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water; that the said Otto Von Geldern and C. E. Grunsky did make, prepare and submit to the said Board of Trustees plans and estimates of the cost of such a system of waterworks; that the said Board of Trustees did, by resolution duly passed by a vote of more than two-thirds of the members thereof, receive, accept and approve said plans and estimates; that as shown by said plans and estimates and as is now hereby determined, the maximum cost of the acquisition, construction and completion of a permanent system of waterworks, including all necessary lands, rights of way, water-rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, will amount in the aggregate to Twenty-two Thousand Five Hundred Dollars; that the entire assessed value of all the real and personal property of and in said city is not in excess of three hundred and twenty-five thousand dollars; that the entire annual income and revenue of said city has hitherto been and now is the sum not to exceed Two Thousand Dollars; that there is now no outstanding, unpaid indebtedness of, or due from, said city; that the cost of the acquisition, construction and completion of said system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks and machinery for the same, and connected with the use thereof, will not exceed and will be less than 15 per cent. of the assessed value of all the real and personal property of and in said city.

SECTION II.

Now, therefore, in consideration of the premises, and in pursuance of the acts, ordinances, resolutions and proceedings aforesaid, and of the laws and statutes in such cases made and provided, a special election is hereby ordered and called to be held and conducted in and for said City of Sonoma, California, at the time and in the manner hereinafter fixed, designated and described; at which special election there shall be submitted to the qualified voters of the said City of Sonoma, and there is hereby submitted to the qualified voters of said city to be voted upon at said special election as hereinafter provided, the proposition of incurring a debt amounting to Twenty-two Thousand Five Hundred Dollars by said City of Sonoma, for the acquisition, construction and completion by said city of said permanent system of water works, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks, and machinery for the same, and connected with the use thereof and of the whole of said contemplated system of water works is Twenty-two Thousand Five Hundred Dollars.

SECTION III.

The objects and purposes for which said indebtedness is proposed to be incurred are as follows: The acquisition, construction and completion by said City of Sonoma of said permanent system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks and machinery for the same and connected with the use thereof as aforesaid, and to do and perform all acts and things whatsoever necessary for the construction and completion of public waterworks for the said city and its inhabitants, and for the construction and completion of said waterworks, to supply said city and the inhabitants thereof with a sufficient quantity of pure, fresh water for domestic use and for the use of the Fire Department, and for flushing sewers, sprinkling streets and other purposes.

SECTION IV.

The estimated cost of the acquisition, construction and completion by said city of said system of water works, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for the supplying of water, structures, acqueducts, reservoirs, wells, tanks, and machinery for the same, and connected with the use thereof and of all other things and acts whatsoever necessary for the proper use thereof, and of the whole of said contemplated system of water works is Twenty-two Thousand Five Hundred Dollars.

SECTION V.

That the acquisition, construction and completion of said system of water works by said city is necessary for the following reasons:

First—That said city has no water works in its possession or under its control.

Second—That the supply of water now and hitherto furnished to said city and its inhabitants is and for many years last past has been wholly insufficient for domestic use, for the use of the Fire Department, sprinkling streets, flushing sewers, and other great necessities, and is liable to give out entirely.

Third—That the water now and hitherto supplied to said city and its inhabitants by the existing water company is unsuitable for domestic use.

Fourth—That it is necessary and for the best interests of said city, and the inhabitants thereof, and the public interest and necessity demand that a sufficient supply of pure, fresh water be furnished said city and the inhabitants thereof for domestic use, sprinkling streets, flushing sewers, for the Fire Department and other great necessities.

SECTION VI.

It is hereby determined and declared that the cost of the acquisition, construction and completion by said city of said system of water works, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for supplying water, structures, acqueducts, reservoirs, wells, tanks, and machinery for the same, and connected with the use thereof is and will be too great to be paid out of the ordinary annual income and revenue of said city, and therefore it is necessary for said city to incur a debt amounting to Twenty-two Thousand Five Hundred Dollars, and to issue bonds of said city to pay for the cost of the acquisition, construction and completion of said system of waterworks and to pay the cost of all thereof.

SECTION VII.

That bonds of the city of Sonoma of the character of bonds known as "serials" to the aggregate amount of Twenty-two Thousand Five Hundred Dollars will be issued to pay for the cost of the acquisition, construction and completion of said system of waterworks if the proposition to incur said municipal indebtedness by said city for the cost of such system of waterworks be accepted by the qualified voters of said city at said special election; and said bonds shall be issued and made payable in Gold Coin of the United States of America of the present standard of weight and fineness in the manner following: One-fortieth part of the whole amount of said indebtedness so incurred shall be payable each and every year on a day in each year, and at a place to be specified therein, and to be hereafter fixed by the Board of Trustees of said city. Said indebtedness, or any unpaid portion thereof, shall bear interest, payable in like Gold Coin at the rate of six per cent. per annum, which interest shall be paid in semi-annual installments, payable on certain days in each year, and at a place to be specified in said bonds and to be hereafter fixed by the Board of Trustees of said city.

SECTION VIII.

Said special election hereby called as aforesaid, shall be held on Monday the fourteenth day of June, 1897, and shall be held and conducted, and the votes thereat received and canvassed, and returns thereof made and the result thereof ascertained and determined as herein provided and according to the law governing such elections in the City of Sonoma; and the polls for such election shall be and remain open from sunrise of the said fourteenth day of June, 1897, to the hour of five o'clock in the afternoon of said day.

SECTION IX.

Notice of the said special election shall be published for not less than two weeks prior to said day of election, and after the final publication of this ordinance as hereinafter provided, in at least one of the newspapers published in the City of Sonoma, in accordance with the terms and provisions of the statutes in such cases made and provided.

SECTION X.

The ballots which shall be used at said special election shall be of the same character and form as ballots required by law to be used at municipal elections in said City of Sonoma, except as hereinafter otherwise provided. Each of said ballots shall have printed thereon the following caption or heading, to-wit: "MUNICIPAL TICKET," and shall have printed thereon and under said caption the following words, to-wit: "Proposition for incurring an indebtedness by the City of Sonoma to the aggregate amount of Twenty-two Thousand Five Hundred Dollars for the acquisition, construction and completion by said city of a permanent system of waterworks, including all necessary lands, rights of way, water rights, distributing pipes, leases, contracts for supplying water, structures, acqueducts, reservoirs, wells, tanks, and machinery for the same, and all other things necessary for the proper use thereof, as set forth in Ordinance No. 52 of said city." Underneath the last foregoing words upon each of said ballots shall be printed the following: "To vote for or against incurring said indebtedness stamp a cross (X) to the right of and against the answer you desire to give." Underneath which shall be printed in one line the following: "For incurring the indebtedness," to the right of which shall be printed in one square the word "Yes" with a blank square to the right thereof, and immediately below the same there shall be printed in one line the following: "For incurring the indebtedness," on the right of which there shall be printed in one square the word "No," with a blank square to the right thereof. Every voter desiring to assent to, and accept the said proposition for incurring the said indebtedness set forth herein shall in voting at said election stamp a cross (X) in the blank square to the right of the word "Yes" printed upon his ballot as aforesaid. And every voter desiring to reject the said proposition of incurring said indebtedness shall in voting at said election stamp a cross (X) in the blank square to the right of the word "No" printed upon his ballot as aforesaid.

SECTION XI.

The place of voting at said special election shall be in the building known as the City Pavilion, situated in the public Plaza in said City of Sonoma; and the officers to conduct said election are respectively defined, designated, selected and appointed as follows, to-wit: Judges, J. Litzius and A. Bulotti; Inspectors, V. Jensen and J. D. Wagnon; Ballot Clerks, Jas. H. Albertson and Peter Keil; Tally Clerks, L. Breitenbach and H. C. Lutgens. In case any of the officers above appointed to conduct said election do not attend at the opening of the polls on the morning of the election, the electors of the said city present at that hour may appoint or supply any competent person from among themselves to fill the place of such absent member thereof.

All persons qualified by law to vote at municipal elections in said city shall be qualified to vote at said special election.

XII.

As soon as the polls are finally closed at said special election, the officers of election shall canvass the votes cast at said special election for and against incurring said indebtedness hereinbefore mentioned, as nearly as practicable in the manner provided by law for canvassing votes for municipal officers at elections held in the city of Sonoma. The returns of said special election shall be made out and signed in the usual form by the said officers of election, and shall be deposited with the City Clerk of said city together with the ballots cast at said special election.

The Board of Trustees of the City of Sonoma shall, as soon as the said returns and ballots have been deposited with the said City Clerk as aforesaid, canvass the returns in the manner provided by law for canvassing the returns of elections of municipal officers in said city. If, upon the canvass of said returns as aforesaid, it shall be ascertained and determined that at least two-thirds of the qualified voters of said city voting at said special election, have voted in favor of the said proposition for incurring the said indebtedness, then bonds of the City of Sonoma, in the sum of Twenty-two Thousand Five Hundred Dollars, shall be issued by said city as by law provided, and hereafter prescribed by the said Board of Trustees of the City of Sonoma.

SECTION XIII.

Immediately upon the passage of this Ordinance by said Board of Trustees and the approval thereof by the Executive of said city, to wit: the President of the Board of Trustees, this ordinance shall be published once a week for two weeks consecutively in THE SONOMA INDEX-TRIBUNE, a weekly newspaper of general circulation printed and published in said City of Sonoma, and the City Clerk of said city is hereby ordered and directed to cause such publication of this ordinance to be made as aforesaid.

Passed this 5th day of M[illegible] the following vote:

Trustee Seipp, voting aye.
Trustee Modini, voting aye.
Trustee Hartin, voting aye.
Trustee Bulotti, voting aye.
Trustee Poppe, voting no.
Approved this 5th [illegible]

President Board of Trustees.

Attest:

SONOMA, SATURD... EDITOR

WHEN THE SULT...

The water proposition will be a great misfortune to Sonoma.

THE water proposition is now on. It is water or no water. Now what are we going to do about it?

OUR esteemed contemporary, the *Press* of Santa Rosa, in reporting the death of a man named Johnson, who died in Sebastopol from hard
A drink, the other day, remarked
Of that "he had been working for
And s
Of her
Till th
Not fo
Not fo
When
a year." Evidently unload-
schooners of beer, eh?

Then,
The da
Glide
THERE are some people in this
n who are trying to pull down
the INDEX-TRIBUNE on the water proposition by threatening to boycott the paper. We are in this fight to stay and will not be pulled down by anybody. Now, boycott if you want to. But recollect that a boycott is a double-edged weapon that cuts both ways.

IN this issue we publish the supplemental report of engineers Von Geldern and Grunsky on Sonoma's various local water supplies. It appears to us that any one of the propositions are good for a town that is crying out for water and is ready and willing to patronize a public system of water works.

THERE will be a mass meeting of citizens to discuss the water problem and help out the City Trustees in their efforts to give this town a supply of water. The meeting will be held about June 7th, one week before the election to decide if it is water or no water.

THE INDEX-TRIBUNE favors a
...ter water service for Sonoma,

Nearly ...y mind. Yeadmits this.
This bei... and confirmed ...ple unite
on one of ...re... second ...as to the
end that there ... friction in
solving the question of water or no water.

E. W. DAVIS, County Superintendent of Schools, on Wednesday last was unanimously elected Secretary of the Board of Regents of the University of California. The office is for life and the salary is $2,500 per year. Mr. Davis, it is said, will resign his present office and enter upon the discharge of his new duties about June 1st. The Board of Supervisors will have the selecting of Mr. Davis' successor.

THE people of this town have elected as Trustees prominent business men and property owners to manage its affairs. If they had no confidence in these men why did they elect them? As a matter of fact Sonoma has a good, honest Board of City Trustees, who, in their efforts to solve the water problem, are doing all in their power to serve the whole people—not a few chronics and kickers, who have private axes to grind.

J. J. LIVERNASH, for many years editor of the Healdsburg *Enterprise*, has been appointed to a responsible position under the Harbor Commission and has taken up his residence in San Francisco. He will continue his editorial work on the *Enterprise*, however, and keep up the reputation of that newspaper as being one of the best conducted weeklies in Northern California. We congratulate you, John, on your good luck. How about that French dinner?

Smiles Irridiate the Countenance

When those atrocious bodily troubles chills and fever, dyspepsia, kidney or rheumatic disorders, yield, as they invariably do, to the benign action of Hostetter's Stomach Bitters, a remedy of comprehensive use, pure in composition, unobjectionable to a delicate palate, and thorough in effects. Sick headache, loss of appetite, flesh and sleep, nausea, heartburn, are among the physical annoyances obviated by the Bitters. They are in the nature of signals of distress displayed by a disordered stomach, liver and bowels, and disappear with the cause that produced them. But these signals should be heeded at once. Then the woe begone look of chronic ill health will speedily disappear, and vigor and comfort restore a cheerful aspect to the face. That faithful index to the condition of the system never fails to wear a look of sunshine when the Bitters is use to dispel the cloud.

SONOMA'S LOCAL WATER SUPPLY.

SUPPLEMENTAL REPORT BY ENGINEERS VON GELDERN AND GRUNSKY.

What it Will Cost to Utilize the Schocken, Lawrence and Other Wells.

Engineers Von Geldern and Grunsky have prepared the following supplemental report on Sonoma's various local water systems without the expense of a pumping plant, if we except for fire purposes. We publish the report in full in order that he who runs may read. The report, which was filed with the Board at the last regular meeting, is as follows:

To the Hon. Board of Trustees of the City of Sonoma—Gentlemen:

In compliance with your request to furnish you with information concerning cost of securing and distributing, under low pressure, water from such sources as are locally deemed to be able to supply it in adequate quantity, including sufficient storage of pumped water at the necessary elevation to afford reasonable fire protection, we now submit additional estimates of cost, but in doing so wish it to be understood that we do not express any opinion upon the sufficiency of the supply of any individual source by natural flow for your present or future needs. In this matter you have had experience, your city being at the present time largely dependent upon the water which circulates under low pressure (about twenty feet above the Plaza surface,) in a system of wooden pipes, and whose source is the spring on the Vallejo property, supplemented by a contribution from the well of Mr. S. Schocken.

The flow of artesian wells increases as the height of the delivery point decreases. It follows therefore that the supply from the present sources may be increased somewhat by a further reduction of service pressure (which would, however, be very undesirable); but the extent of such increase of flow must remain, for the present, purely conjectural, as no facts relative to the artesian flow in your city are known to us that would enable us to express an opinion in this matter. Before constructing water works contemplating the use or any of the herein specified sources of supply, particularly when the possible increase of yield by pumping is to be disregarded, you must have positive information concerning the amount of water which that source can be relied on to furnish. And this information is not now available and can not be satisfactorily obtained by us without the incurring of considerable further expense.

Local sources of water which may come into consideration as available for supplying the town under low pressure are the Vallejo spring, the Lawrence wells and the Schocken and other similarly situated wells.

VALLEJO SYSTEM.

The spring on the Vallejo property has been walled in and forced to discharge into a lined reservoir whose surface is about 8 feet higher than the original outflow point of the spring. Some of the water leaks through the walls of the masonry chamber. The reservoir has a capacity of about 200,000 gallons. To utilize this source of supply, with water in the piper under low pressure, it would be necessary to check leakage and loss of water at the spring; to connect the reservoir with a system of distributing pipes by means of an eight-inch main pipe line; and at some convenient spot, probably at the end of this main pipe line, to erect an elevated reservoir or tank, for fire protection purposes, of 30,000 gallons capacity (supporting trestle to be about 80 feet high) and to establish a pumping station equipped with a pump of about 5,000 gallons per hour capacity, to be operated by a gasoline engine of five horse-power.

This arrangement would permit the connection of the elevated tank with the distributing system of pipes in case of fire. A back flow into the reservoir at the spring would be prevented by a check valve. During fire service the pump may be kept in operation, drawing its supply through the main pipe line and supplementing the storage capacity of the tank.

The estimated cost of utilizing this source of supply in the manner indicated is as follows:

Water rights and rights of way, including the Vallejo reservoir		$ 5,000
Main pipe line, 8 inch, No. 14 iron riveted pipe, 2000 feet at 60cts		1,200
Distributing system pipes—		
1,900 feet 8-inch cast iron at $1.10	$2,090	
1,289 feet 6-inch cast iron at 80cts	1,024	
6,930 feet 4-inch cast iron at 60cts	4,158	
14,870 feet 2-inch wrought iron at 22cts	3,271	
		10,543
Two 8-inch gates, three 6-inch gates, eight 4-inch gates, twelve 2-inch gates, twenty-two valve boxes, twenty-six fire hydrants		1,204
Tank, 30,000 gallons, on trestle, gasoline engine, pump and pump house		2,000
Town lot for pump house and tank		400
		$20,347
Additional for engineering, incidentals, etc, about 10 per cent		2,153
		$22,500

No specific offer of the Vallejo water rights having been made, the amount of $5,000 included in the above estimate, has been arbitrarily assumed as their value, and this estimate should be suitably modified to correspond with any such offer whenever made.

LAWRENCE WELL.

The wells on the Lawrence place, which are now yielding but little water, are rumored to be capable of affording an ample supply at about the same elevation as that of the Vallejo spring. In view of their undoubted present inefficency it is necessary to include in the estimate of cost as below given an item for developing their flow. Their utilization would involve the construction of a reservoir of about 100,000 gallons capacity, and the establishment of a pumping station and elevated reservoir or tank for fire protection. The location of this property being convenient, the pumping station may be located at the wells and the fire tank or reservoir may be constructed in an excavation on the hill. This arrangement has been made the basis of the following estimate of cost:

Purchase of property		$ 3,250
Low reservoir (100,000 gallons,) connection with wells and development of water supply		1,100
Fire protection reservoir (30,000 gallons) and connections		650
Five H. P. gasoline engine, 5,000 gallons per hour pump and pump house		800
1820 feet 8-inch No. 14 iron riveted pipe at 60cts		1,092
Distributing system pipes—		
1,650 feet 8-inch cast iron pipe at $1.10	$1,815	
1,340 feet 6-inch cast iron pipe at 80cts	1,072	
7,590 feet 4-inch cast iron pipe at 60cts	4,554	
13,550 feet 2-inch wrought iron pipe at 22cts	2,981	
		10,422
Gates, valve, boxes and fire hydrants as above		1,240
		18,518
Add for engineering, incidentals, etc, about 10 per cent		1,882
		$20,400

SCHOCKEN AND OTHER WELLS.

Should the artesian well of Mr. S. Schocken or any other similarly situated wells be made the source of supply, then storage to the extent of at least 50,000 gallons in low reservoirs, besides the storage of pumped water in a reservoir supported on an eighty-foot high trestle to the extent of 30,000 gallons, should be provided. The cost of the works is estimated as follows:

Purchase of water right, including well		$2,500
Low storage tank 50,000 gallons		400
High storage tank, 30,000 gallons, and equipments		1,200
Five H. P. gasoline engine, 5,000 gallons per hour pump and pump house		800
Distributing system pipes—		
1,500 feet 8-inch cast iron pipe at $1.10	$1,650	
1,340 feet 6-inch cast iron pipe at 80cts	1,072	
7,590 feet 4-inch cast iron pipe at 60cts	4,554	
14,870 feet 2-inch wrought iron pipe at 22cts	3,271	
		10,547
Gates, valve boxes and fire hydrants as above		1,204
		16,351
Addition for engineering and incidentals, about 10 per cent		1,649
		$18,000

Concerning the operation of a low pressure service but little is to be said. The amount of water thus made available will be limited by the yield of the selected source of supply, and when this becomes insufficient you will be compelled to secure more water, probably by pumping your full supply.

While the natural flow of your source continues adequate for your needs the only water to be pumped is for fire purposes. The elevated tank must be kept full. The renewal of its water from time to time will, however, be necessary even when there are no fires, and it may be assumed that the pump will be in operation one day per month to fill it. The fuel cost to accomplish a single filling will be about 50 cents.

In case of fire it will be necessary to open the gate from the elevated tank to the distributing system, which will at once put the water in the mains under a pressure of 35 to 40 pounds per square inch. The pump should always be put into service during a fire to replenish, to the extent of its capacity, the contents of the tank.

Very respectfully.

Prof. Price, teacher of Latin in the State University at Berkeley, on Tuesday last, examined Mr. Sims' class of the Sonoma High School. The Professor expressed himself as being very much pleased with the nature of the work of the students, which he found equal to that of any High School in the State.

Scrofula Swelling

On the Neck and Great Weakness Caused by Impure Blood—Was Constantly Growing Worse.

"When my son was 5 years old he was in very poor health and we could get nothing to relieve him. At the age of 7 years he began to complain of soreness on both sides of his neck and soon lumps began to gather on one side and grew to half the size of an egg. We then became more uneasy and began to doctor him for scrofula. He gradually grew worse, however, until at the age of twelve years we had lost all hope of his recovery. He became so weak he could sit up but a few minutes at a time. My wife saw Hood's Sarsaparilla recommended as a great blood purifier and we sent and got a bottle. We began giving our boy the medicine according to directions and it was not long before we saw he was improving. He continued taking it until he was in very good health. He is now 13 years old and is well. We recommend Hood's Sarsaparilla for all troubles caused by impure blood." S. M. CLEVER, Grouse, Oregon.

Hood's Sarsaparilla is sold by all druggists. $1; six for $5. Get only Hood's.

LOCAL HAPPENINGS.

FOURTH OF JULY.

To be Celebrated in Sonoma—Committee Selected to Make Necessary Arrangements.

The following citizens of Sonoma Valley have been selected by President Seipp of the Board of City Trustees to make arrangements for celebrating the Fourth of July in this place this year:

Sonoma—G. H. Hotz, F. Clewe, A. A. Enke, H. Weyl, L. Modini, J. E. Poppe, F. T. Duhring, H. Hartin, J. Burris, G. S. Harris, E. Wegner, S. Schocken, H. H. Granice, S. Ciucci, Dr. H. H. Davis, C. Dresel, Dr. Carl Walliser, O. Rufus, V. Bulotti, L. Litzius, H. G. Maxwell, Robt. Pasch.

Schellville—Wm. Goodman, R. Hall, Robt. Howe, Chas Ohm, Geo. Campbell.

Agua Caliente—H. Appleton, M. K. Cady.

Eldridge—Dr. A. E. Osborne, Robt. Hill.

Glen Ellen—A. R. Harrison, J. Frideger.

The first meeting of the committee will be held to-day (Saturday) in the City Pavilion at 2 P. M.

THE HIGH SCHOOL.

Three New Trustees to be Elected—Special Meeting To-day.

A special meeting of the High School Trustees will be held this afternoon at 2:30 o'clock to discuss school matters in general and the coming closing exercises of the school in particular

On the first Friday in June three new High School Trustees will be elected, one each from the San Luis, Watmaugh and Huichica districts, which are now represented by Hon. Robt. Howe, T. S Glaister and Geo. O. Campbell. The High School Trustees will be elected in their respective districts in the same manner and at the time and place as the District School Trustees. They will hold office for three years.

FOUTS RECOVERING.

Sikes, His Assailant, Still at Large.

Louis Fouts, who was slashed by Wm. Sikes across the face with a razor, is still in the County Hospital at Santa Rosa, and is rapidly recovering from the cut, which, however, will disfigure him for life. Wm. Sikes, his assailant, who was allowed to walk out of town unmolested after attempting the life of Fouts, is still at large, but will no doubt be apprehended in time by Sheriff Allen and his deputies.

The Monahan Estate.

Thos. F. Monahan has applied for letters of administration on the estate of his father, the late Patrick Monahan, who died in this place a number of years ago. The estate is valued at $1,825. F. T. Duhring is attorney for the estate.

Local Brevities.

Three pumps to be used in raising water for sprinkling the county road between Sonoma and Embarcadero, are now at the Donahue depot.

R. J. Corbett, owner of the yacht "Belle," accompanied by Geo. Phillips and Wm. Kearney, left last Wednesday morning for a week's cruise on San Francisco and San Pablo Bays.

At Schocken's store you will find new goods. No clearance sale, but up to date prices and a brand new stock to select from. *

GRAVEL VS. BASALT BLOCKS.

A New Sonoma Enterprise that Ought to be Encouraged.

Bitumen having apparently supplanted basalt blocks in paving the streets of San Francisco A. Pinelli, for many years engaged in shipping paving blocks to the metropolis, has ventured to supply that city with gravel to be used in paving its bituminous streets and laying down its cement sidewalks. On Tuesday last he shipped to the city, per schooner "Four Sisters," a large quantity of gravel for the above purpose. Another shipment will be made to-day by the same transportation service. It is Mr. Pinelli's intention, should his new business venture prove profitable, to ship large quantities of gravel to the metropolis both by rail and water. The gravel is taken from the bed of Sonoma creek and the supply is almost inexhaustible.

POISONED.

Three Children Eat Sardines and are Taken Violently Ill.

On Wednesday afternoon last Albert, Emma and Georgie, aged 17, 10 and 7 years respectively, children of Mr. and Mrs. Geo. O. Campbell, residing on their farm near town, were taken violently ill and their condition became so alarming that Dr. Walliser was hastily summoned. The doctor, upon examining the children, found that they were suffering from some kind of poison and applied the usual remedies and in a few hours all were considered out of danger except Albert, the eldest. He continued to grow worse, but in the course of twenty-four hours the doctor pulled him through too. It appears that the children, who are attending the public school in this place, partook freely of canned sardine sandwiches at the noon hour. Shortly after all three complained of feeling sick. Upon reaching home they continued to grow worse. Fortunately Dr Walliser arrived in time to save the children much suffering if not their lives.

Civil Suits.

The following civil suits have been instituted in Judge Cheney's Court:

J. W. Horn vs. Alberto Calanchini. This suit is instituted by the Horn Collection Agency of Petaluma to recover the sum of $23.40, amount due F. Pezzaglia by defendant for board. Lyman Green is attorney for plaintiff.

A. J. Van Every vs. Jas. Campbell. This action is brought to recover the sum of $45, alleged to be due plaintiff for carpenter work. John S. Enos is attorney for plaintiff and Lippitt & Lippitt are the lawyers on the other side. The case will be tried to day at 10 o'clock.

Bush & Mallett Company vs. John A. Nordin and Mary E. Nordin. This suit is instituted by plaintiffs to recover from defendants the sum of $136 68, for goods, wares and merchandise. F. T. Duhring is attorney for plaintiff.

Meeting of Citizens.

There was a meeting of citizens in Weyl's store on Thursday evening last to discuss the water proposition. The following were present: Robt Poppe, J. E. Poppe, J. B. Small, Geo. Breitenbach, E. J. Robin, Henry Weyl, S. Schocken, J. M. Cheney, Ed. Wegner, C. Aguillon, H. Castagnassio, Peter Keil, Nick Ahern, R. Quartaroli, D. M. Eschbach, J. Stockwell, J. P. Weems, Gus Seipp and Wm. Glynn. Another meeting will be held this evening at the same place.

Hay Press to Rent.

If you want to go into the hay-baling business this season don't fail to read the adv. of "hay press for sale or to rent," which appears in another column. Nis Matthiesen, the owner of the hay-press, has engaged in the saloon business at Melitta, hence the offer to sell or lease.

The argument of "Œdipus the King," the Greek play which will be produced by the High School on Saturday evening, May 29th, was written for the INDEX-TRIBUNE by Deme Gordenker, one of the Class of '97 of the Sonoma Valley High School.

You probably pay too much a month for tea; it is probably not very good.

Try *Schilling's Best*. If you don't like it, your grocer returns your money.

You may find unexpected pleasure and profit in it.

A Schilling & Company
San Francisco

ŒDIPUS THE KING.

Argument of the Play Shortly to be Produced by the High School.

What Shakespeare is to modern dramatic literature Sophocles is to the drama of the ancients. The relation that "Hamlet" or "Macbeth" sustains to the other works of Shakespeare, "Œdipus the King" sustains even to a greater degree to the other tragedies of Sophocles. It is the highest and most perfect expression of that tragic element in life, the representation of which was so pleasing and instructive to the Greek mind.

The plot of the play is an outgrowth of the curse which fell on Cadmus and his posterity for slaying a dragon sacred to Mars, the stern god of war. King Laius of Thebes, a descendant of Cadmus, was warned by an oracle that should his wife Jocasta bear him a son, his life and throne would be endangered. Shortly afterwards a son was born to them and fearing the oracle they gave him to a shepherd that he might destroy it. The shepherd pierced the child's ankles and then moved by pity gave him to a fellow shepherd, who bore the infant to King Polybos of Corinth, by whom he was adopted and named Œdipus or "Swollen-Foot." But when Œdipus arrived at man's estate he learned from an oracle that he was fated to be the murderer of his father and husband of his mother, and thinking to escape such an awful fate he left Corinth. About this time the gods, mindful of the ancient curse against the descendants of Cadmus, sent the Sphynx to desolate the kingdom of Laios, and he went to the shrine of Apollo seeking relief. On his way he met Œdipus, who moved to rage at being driven from the road to make way for the King slew Laios and all his attendants except one. That one went back to Thebes, and ashamed to say that it was the deed of one man, told that robbers had committed the crime. When Œdipus arrived in Thebes he answered the riddle of the Sphynx, thus freeing the land from the great curse. The Thebans in gratitude chose him as their King and he was taken as husband by the unsuspecting Jocasta. But soon the wrath of the gods fell upon Thebes, and Œdipus learned from an oracle that the murder of Laios must be avenged. In seeking the murderer, Œdipus summons the attendant who had escaped and from him learns the true state of affairs. Jocasta, unable to bear the disgrace kills herself and Œdipus in his grief and shame puts out his eyes and goes forth from Thebes blind and desolate. Thus were the words of the oracles fulfilled and the sin of Cadmos visited on his descendants.

Such is the plot of the play which Aristotle selected as the master-piece of Greek tragedy. Yet interesting as is the plot, it is not that alone that makes the play once seen, long to be remembered. The chorus appearing at the end of each act and chanting forth its grief or pleasure on what has passed will afford a unique spectacle and one, too, never before seen in this city, and but few times in the United States. The Harvard graduating class of '85 put on this tragedy and the success which attended its production at Harvard and Boston speaks more eloquently than mere words of its real merit.

GLEN ELLEN ITEMS.

The weather has been quite warm and windy the past week.

Supervisor Putnam was in town last Wednesday looking after road business.

H. R. Martens was burdened for a few days this week with considerable jawbone. An ulcerated tooth was the cause of it.

An assault and battery case was called in Judge Gibson's Court one day this week, but owing to the sickness of the defendant the proceedings were postponed indefinitely.

According to the Census Marshal's report for this school district there are 47 children in the district, 31 of whom are between 5 and 17 years.

E. R. Allen and C. E. Harvey, with their families, will shortly make an extensive camping tour through the State of Nevada. They will go by team and will undoubtedly greatly enjoy the outing.

Mine host Harrison of the Mervyn Hotel is doing a rushing business these days. On Wednesday last a party composed of Mr. Harrison's guests took a drive through Nun's Canyon. The rigs were furnished by G. S. Harris, Sonoma's enterprising livery stable keeper.

Glen Ellen, May, 14, 1897.

Don't Tobacco Spit and Smoke Your Life Away.

To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or $1. Cure guaranteed. Booklet and sample free. Address Sterling Remedy Co., Chicago or New York.

PERSONAL AND SOCIAL

And Other Matters of Interest to the General Reader.

[Contributed by Marjorie Dow.]

Items of a personal and social nature are thankfully received at this office and will be edited by Marjorie Dow.

An enjoyable hay ride was participated in last Tuesday evening by the following ladies and gentlemen: Mrs. S. Schocken, Mr. and Mrs. Walter Hirschfeld, Mrs. B. Baer, Miss Mamie Sprella, Miss Gussie Baer, H. L. Pasch, Mr. Boyes and Robt. Pasch. Robt. Bain handled the ribbons and guided the merry hay-riders to many points of interest in the valley.

The ladies of the M. E. Church gave a chicken-pie dinner at the home of Mr. and Mrs. Moses last Tuesday evening. The dinner was well patronized and a neat sum was netted for the church.

Will Clewe pleasantly entertained his many friends at his handsome home on the corner of Napa street and Second-street East last evening.

Miss Reed Hutchins of San Francisco has been taking an active part in the Ginger Bread fete at the Crocker mansion this week. Miss Hutchins was a guest of Miss Agnes Duhring last summer.

Mr. and Mrs. J. D. Wagnon are in San Francisco. Mr. Wagnon is a delegate from Sonoma Lodge, No. 28, I. O. O. F., to the Grand Lodge, which has been in session the past week in the above city. Mrs. Wagnon is a delegate to the Rebekah Convention.

The season will open at the Agua Caliente Springs next Saturday with a social hop. Mrs. Nordin, the owner, has made many improvements and anticipates a lively season at this well-known summer resort. All are invited.

Mrs. Marie Chase of San Francisco will spend the next two weeks at her old home, the Seipp farm.

Interest increases in the coming concert and those wishing choice seats will do well to get them as soon as the seats are ready for sale, as they will certainly sell rapidly.

Robby Waugaman, who has been visiting his grand parents at Eden Dale, returned to his home in the metropolis Sunday.

Editor J. P. McDonell of the Sebastopol *Times* attended the reception tendered the teachers here Monday evening. Our enterprising journalistic contemporary is not only a bright, first-class newspaper man, but also an eligible bachelor and a prime favorite with the ladies. This fact was plainly apparent to us Monday night.—*Healdsburg Enterprise*.

Col. Charles W. Pickett, editor of the New Haven (Conn.) Leader, had a narrow escape from death April 11th. In place of his regular after-dinner medicine he took a dose of nox vomica. Discovering his error, he jumped on his bicycle and "scorched" to his physician's office. A stomach pump did the rest.

Sonoma's lawyer, Fred'k T. Duhring, transacted business in San Francisco several days this week.

Mr. and Mrs. Louis Meyer of Healdsburg favored this office with a small box of wedding cake one day this week, Accompanying the gift was a neat card which reads as follows:

LOUIS MEYER. OZA WALDROP

COMPLIMENTS OF

MR. AND MRS. LOUIS MEYER,

Married by

Rabbi J. Nieto, at Ukiah,

May 9, 1897.

Percy, the infant son of Mr. and Mrs. Frank Carmer of El Verano, is dangerously ill with congestion of the brain.

Mrs. R. G. Steele of Merced is the guest of her Sonoma relatives at Morning Glory Villa.

The reserved seats for the concert will be on sale at Duhring's store on the first of June.

E. Gilbert of San Francisco, accompanied by his son Frank, came up from San Francisco last week and has been laying a foundation to the water tanks on his place on First-street East. Mr. Gilbert will remain in Sonoma about a month and do cooperage repairing.

Mrs. G. M. Bru[illegible] fashionable dressmaker, 852 M[illegible]oma.

Mrs. Fred. H. Hyer and friend, Miss Ida Brown of San Francisco, are visiting Mrs. Hyer's brother, J. C. Ayers of Alta Vista farm. A luncheon was given them by Mrs. A. Bain on Wednesday. Both ladies are enjoying the mountain air and cannot say too much in praise of the Sonoma mountains.

Neil Ryan of Benicia has been spending the past few days with his brother, Joe Ryan.

Miss Lizzie Beatty of Glen Ellen is the guest of Mrs. Chas. N. Cheney.

Leland Ramsdell of San Francisco is visiting at the Granice residence.

One of the choice numbers on the programme at the concert will be a string quintette, "In the Mill," by Gillet, with imitation of the click of a mill. It will be the first opportunity the people of the valley have ever had to hear purely string music. The instrumentation will be four first violins, three second violins, viola, 'cello and contrabass.

SONOMA INDEX - TRIBUNE.

H. H. GRANICE, Proprietor.

SONOMA, SATURDAY, MAY 15, 1897.

The Holy House Loretto.

About 15 miles south of Ancona on the main line is the station of Loretto, and on the hillside, about 3 miles from the sea, stands the city. Towering far above the town rise the great dome and campanile of the wonderful fortified church which shelters within it the santa casa, or holy house, every year the object of pilgrimage of so many thousands of the faithful. On entering the church one sees at once, standing under the dome, a strange low chapel covered with white marble carving and gleaming sculpture. A host of sixteenth century artists—chief among them Sansovino—carried out Bramantes' design for the marble casing of the holy house. But in striking contrast to the rich exterior are the plain and rough stone walls of the interior. The innumerable silver lamps give a dim religious light, and the jewels on the image of the Madonna and the Child—a wonderful black image, carved, it is said, by St. Luke from cedar of Lebanon—scintillate in the gloom like innumerable stars.

Such is the holy house which angels are said to have brought from Nazareth in the thirteenth century in order to save it from desecration by the infidel. But the house was not brought immediately to Loretto. The angels placed it first on a hilltop near Fiume, on the Dalmatian shore. There it stayed for three years, when it was moved again and deposited in a wood on the opposite site side of the Adriatic, near Recanati. The wood was a laurel wood, and the house was consequently called domus lauretana, or house of Loretto. Twice more, however, the house was miraculously moved short distances, till it was at length placed in its present position, not a very convenient one, it might have been imagined, for it was then the middle of the public road.

It seems almost unnecessary to say that there have been those that have made merry at this frequent "translation" of the holy house, yet an innumerable multitude of the great ones of the earth, including many popes and kings, have paid homage to this black Madonna in its rude stone cottage.—Westminster Gazette.

Belief Comes With Knowledge.

"Travelers' tales," although they have always been regarded with suspicion, were received by our ancestors in a singularly confiding spirit, and Marco Polo, and "that archliar" even, Sir John Mandeville himself, were treated with more or less respect. But as if to make up for their readiness to believe in "Gorgons and Hydras and Chimeras dire," when at a distance, other generations were singularly distrustful of most things near at hand. They displayed to a singular extent the wonderful skepticism that in all things directly touching the person generally accompanies ignorance. The state of mind was very much that of the honest farmer in the city who is in constant dread of being "buncoed."

Ignorance doubts itself, and consequently everybody and everythin else. It is only complete knowledge that is more nearly credulous, and advance toward it has been shown as much by what men are willing to believe and the readiness with which they believe it as by anything else. When the marvels of the Roentgen rays were announced, the attention of the world was brought up with a round turn by a discovery almost dramatic in its suddenness and surprise. Such sharp demands are becoming more and more frequent, but if there is anything more wonderful than the amazing nature of such inventions it is the way in which they are received.—Scribner's.

How Dr. Cuyler Became a Minister.

Peter Carter, in Golden Rule, tells how the Rev. Dr. Theodore L. Cuyler became a minister. It was chiefly owing to his mother's influence. Most of Theodore's immediate male ancestors were distinguished lawyers, and one of them offered him a fine library if he would enter the legal profession. His mother, however, had consecrated him to the ministry, and fearing that he might be persuaded into the study of law she sent him abroad, which was the first of his many trips across the sea. While he was absent in Europe, his mother engaged a room for him at Princeton Theological seminary, so strong was her faith that he was to be ...nister. On his return from Europe Cuyler went with his mother to ho... relatives near Ludlowville, who... while there made two or ... at small religious meetings. His addresses were so successful in their effect that he was convinced that the Christian ministry was his proper field of labor.

Ensilage.

Ensilage is made by cutting the cornstalk when the ear is still in the milk, chopping up stalk, blade, corn and cob and packing the green food in a vat usually about 20 feet deep. After the mass has been allowed to ferment for from 48 to 60 hours, depending on the warmth of the weather, the contents of the vat is weighted down and fermentation ceases. The resultant is food treated with lactic acid, the first operation in a cow's stomach. A cow fed with ensilage is spared the wear and tear on her system of the first digestive processes. A vat of ensilage will keep two years and longer. The food when taken out of the vat is as it was when the fermentation stopped. The ancient Romans used ensilage, and its value was rediscovered 40 years ago by Goffard, a Frenchman.—New York Post.

Weight Doesn't Count.

A large brain does not signify intellect. The brain of an illiterate person in a low station of life has been found to outweigh those of the most celebrated scientists, poets and philosophers.

A Parisian inventor is endeavoring to perfect a phonograph watch. If he is successful, the world will soon see a watch which, by touching a spring, will whisper the time in your ear.

Practice In Diphtheria.

The results of the practice of various Paris physicians with their diphtheritic patients have been made to appear in a published summary of much interest. According to this, tannin, applied locally, seems to have been moderately successful, while salicylic acid and salicylate of soda are stated to have failed entirely. Carbolic camphor—that is, camphor 25, alcohol 1, carbolic acid 9—applied either pure or with oil of almonds, operated quite favorably. Cubebs and copaiba were administered to a slight extent, also tincture of eucalyptus, but not so as to form a criterion. Chlorate of potash proved by far the most successful remedy, as it was also the most extensively administered. Its action is believed by some to be due in part to the oxygen with which it supplies the blood, and which, it is assumed, the diphtherial bacteria have abstracted. Some other physicians, however, are of the opinion that the success should be attributed rather to its local effects.

A Hypnotic For the Insane.

An article which appeared some time ago in The Semaine Medicale on this subject has been widely quoted. It seems that two Prussian physicians, M. Oldeogge and M. Jurman, made a series of careful experiments with the hydrobromide of scopolamine and found that the drug possessed a true value as a hypnotic in the treatment of the insane. Administered hypodermically, in doses varying from 0.003 to 0.015 of a grain, they found that it induced in the majority of subjects a sleep which lasted from three to ten hours, and on awakening the patients appeared much calmer than before the administration of the substance. This effect was especially pronounced in the cases of maniacs, but was not so marked in those of acute lypemania. In chronic insanity the hypnotic action was also manifest to a degree. In delirium tremens, however, the tendency of the drug was only to weaken the patient and there was no hypnotic action whatever.

Just Shrewd Judgment.

She—I went to a fortune teller today, just for a lark, and she told me a lot of things.

He—Yes; some of them hit it pretty closely, but I hope you don't think there is anything supernatural about their powers. They just use shrewd judgment; that is all.

"That may be true, dear. She told me I was married to a man who fell far short of what I deserve."—Indianapolis Journal.

Some Wesley Letters.

A number of papers of interest to Methodism have been discovered in two boxes at the Wesleyan conference office in London. Among them are 44 letters of John Wesley to his brother Charles and 80 by Selina, countess of Huntingdon, the founder of the sect known as the Countess of Huntingdon's connection, written to Charles Wesley.

Everybody Says So.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. to-day; 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

Inquire of S. H. Shaw about the Musical Association for which he is agent. If you expect to buy any music in the next six years you will find it worth your time to interview him, anyhow he would like to inform you about it. It is a good thing for a little money. *

CASTORIA

For Infants and Children.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Homes Under the Ground.

In the salt district in Cheshire, England, the brine has been pumped so continuously out of the earth that the land has settled very considerably. The houses naturally sink with the earth, and in some of the streets in Northwich only the roofs are visible. The houses are inhabited, although the rooms are underground. In a great many cases additional stories have been added, so that by living in the upper rooms the residents may have some light and air. The roadways sink, too, but are kept up to the proper level by the government.—New York Sun.

He Wondered Why.

Miss Oldfriend—I declare, I begin to feel that I am growing old. It's really unpleasant.

Mr. B. Sharpe—Yes, dear. It must be especially so for one who has been young so long.

(And he wondered why she was offended.)—Boston Globe.

Housewives all,

$10 TO $20 A DAY.

Life of McKinley

And Hobart, Republican Candidates for President and Vice President, by HON. R. P. PORTER, the noted journalist, present editor of the CLEVELAND WORLD, and intimate friend of McKinley for twenty years. Absolutely the only authentic LIFE OF McKINLEY published. For more than two years in preparation, and the only work that has received the endorsement of MAJ. McKINLEY and his most intimate friends. No book equal to it as a seller. Everybody wants the book published at McKINLEY'S Home. Porter's book sells at sight. Readers will accept no other. A gold mine for live, active workers. Our agents are clearing from $10 to $20 a day. Chance for thousands of others to do as well. This is the opportunity of your life. The highest commission paid. ORDER OUTFIT NOW. Send 20c (stamps taken) as an evidence of good faith, which amount will be refunded with agent's first order, if it is only for one book, making outfit free. Books on time. Charges prepaid, leaving profits clear. Act quick or while you are waiting others will cut you out. THE N. G. HAMILTON PUB. CO. 1725 Arcade, Cleveland, O.

Fits Cured

From U.S. Journal of Medicine. Prof. W. H. Peeke, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living Physician; his success is astonishing. We have heard of cases of 20 years' standing cured by him. He publishes a valuable work on this disease, which he sends with a large bottle of his absolute cure, free to any sufferers who may send their P. O. and Express address. We advise any one wishing a cure to address Prof. W. H. PEEKE, ... D., 4 Cedar St., New York.
